<b>Check Reconciliation</b>				
Unlimited Number of Bank Accounts	Yes	No	No	No
Electronic Funds Transfer (EFT)	Yes	No	No	Yes
ACH Processing	Yes	No	No	Yes
Post all Bank Entries, Flows Directly to General Ledger	Yes	No	No	Yes
Transfer Funds Between Bank Accounts	Yes	No	No	Yes
Perform Reconciliation of Accounts Payable and Payroll Bank Accounts	Yes	No	No	Yes
Deposits from Accounts Receivable, Point of Sale and Sales Order Entry	Yes	No	No	No
<b>Time Sheet Entry (Integrated to Payroll)</b>				
Operates as a "time clock" Front-End Entry System to the Payroll Module	Yes	No	No	No
Allows Employee Pay Data to be Entered in a Format Similar to a Time Clock	Yes	No	No	No
Payroll Interface Allow the Data to be Summarized by Department and/or Job	Yes	No	No	No
Calculates the Actual Time Allocations	Yes	No	No	No
Updates the Job Cost Main Module directly with Labor Costs without updating Payroll	Yes	No	No	No
Time Periods May be Entered in Either Standard Format or Military Time	Yes	No	No	No
Can Hold All Pending Job Cost Data Until the Next Payroll Cycle	Yes	No	No	No
Allows Unlimited Number of Time Clock Entries	Yes	No	No	No
Provides Time Clock Interface to Payroll for Wide Range of 3rd Party Time Clocks	Yes	No	No	No
Prints Certified Payroll for Job Cost Oriented Projects	Yes	No	No	No

Software Module/Product	Data Pro Infinity POWER	QuickBooks Pro	MAS 100	Microsoft Dynamics GP
<b>Advanced Security Administrator</b>				
Supports Advanced Password and Access Control Capabilities for all Accounting Modules	Yes	No	No	Yes
Security on every Menu Option Within Every Accounting Module	Yes	No	No	No
Monitor and Control Access to Highly Sensitive Accounting and Database Information	Yes	No	No	Yes
Security on Selected Data Fields	Yes	No	No	Yes
Authority Overrides	Yes	No	No	No
List of Logged on Users	Yes	No	No	Yes
Controls User Access to the <b>DP/DashBoard</b> Program Features	Yes	No	No	No
<b>POWERServer</b> with <b>Infinity COMMERCE</b> for all Web Site Implementations				
Ten character User and Group ID Numbers ( <i>alpha/numeric</i> )	Yes	No	No	Yes
Monitor and Control Access to Highly Sensitive Accounting and Database Information	Yes	No	No	Yes
Access may be Provided to an Individual User or a Group of Users to the	Yes	No	No	Yes
Complete Accounting Module or just Specific Options Within a Single Accounting Module				
Control May be Granted at Several Levels	Yes	No	No	Yes
System Tracking of Password Change Date and Times	Yes	No	No	Yes
Features a " <b>Force Password Change</b> " Option Which Requires all Users to	Yes	No	No	Yes
Change Their Password on the Next Login for Security Purposes				
Provides Option Control requirements for User Logins or not	Yes	No	No	No
Custom Security Objects may be added, if desired	Yes	No	No	No
Advanced " <b>Activity Logging</b> " can be Maintained for System Administrator	Yes	No	No	Yes
Wide Range of Security Reports for System Administrator	Yes	No	No	Yes
<b>Customer Support Management</b>				
Advanced " <b>Warranty Tracking</b> " and " <b>Call Center</b> " Billing System	Yes	No	No	No
Able to Track and Bill Customers for Support Calls Made Each Day	Yes	No	No	No
Allows Management to Define Twenty Types of Billing or Call Activities	Yes	No	No	No
Define Three types of Billing Status with User Defined Descriptions	Yes	No	No	No
Define Twenty types of " <b>Follow-up Descriptions</b> " to Track Customer Issues	Yes	No	No	No
Keep Track of Employee Productivity as They Use the System	Yes	No	No	No
Determine How Many Calls or Problems are Being Handled by Each Staff Member	Yes	No	No	No
View Employee Productivity in Either Volume of Activities or by Actual Dollar Based Billings	Yes	No	No	No
Assign a " <b>Tickler</b> " ( <b>reminder</b> ) to a Specific Person to Handle	Yes	No	No	No
Direct Integration with A/R Module Provides Access to Customer Data	Yes	No	No	No
Allows Billing to Occur in this Module Which Directly Updates Customer's Account in A/R	Yes	No	No	No
Perform a Customer Inquiry that will Provide up to the Minute Billing and Payment Status	Yes	No	No	No
Keeps a Detailed Log of Each Call or Event Performed by Staff	Yes	No	No	No
Allows for the Management of Billable Support Contracts	Yes	No	No	No
Supports Fifteen Variations of Support Contracts with Unique Pricing and Length of Terms	Yes	No	No	No
Keep Track of Each Type of Support Contract Assigned to a Customer and the Number of	Yes	No	No	No
Times Renewed by Each Customer				
Print on Demand the Detail of each Support Ticket	Yes	No	No	No
Automatic Sequencing of Ticket Numbers and Contract Numbers	Yes	No	No	No
Allow Assignment of Default Billing Rates per Serial Number	Yes	No	No	No
Print on Demand Listing of all Serial Number Assigned or Tracked to Customers for				
Warranty Tracking	Yes	No	No	No
Track Initial Purchase Date of Products	Yes	No	No	No
Tracks Beginning and Ending Warranty Dates	Yes	No	No	No
Real Time Credit Card Processing Capabilities during Invoicing	Yes	No	No	No
Convert Ticklers in <b>DP/DashBoard</b> to Full Blown Sales Orders with Inventory Items	Yes	No	No	No

Software Module/Product	Data Pro Infinity POWER	QuickBooks Pro	MAS 100	Microsoft Dynamics GP
<b>Report Writer</b>				
Allows Creation of Customized Reports using an <b>Infinity POWER</b> Accounting Database	Yes	No	No	No
Software Utility for Data Mining and Data Extraction <b>Infinity POWER</b> Accounting Data Files	Yes	No	No	No
User Defined Page Size, Page Width, Headings, Default Output Device as well as Report Contents	Yes	No	No	Yes
Automatic Report Spacing and Auto-Calculation of Heading Lines	Yes	No	No	No
Optional Header and Page Number Printing	Yes	No	No	Yes
Special Printer Control Codes within Custom Reports	Yes	No	No	Yes
Multi-Year Access to all Data Files and Reporting Comparisons	Yes	No	No	No
Multi-Company Merge Capability of Data Files	Yes	No	No	No
Ability to Access User Defined " <b>fields</b> " and User Defined " <b>Files</b> " for Custom Reports	Yes	No	No	No
Complete Subtotaling, Totaling and Grand Totaling Capability	Yes	No	No	Yes
Boolean Comparisons for Specific Files Search Selection Includes Wild Card Comparisons	Yes	No	No	Yes
Features " <b>masking</b> " Options on Data Fields for Specific Record Selection	Yes	No	No	No
Statistical Values that can be Changed Easily for Different Report Comparisons	Yes	No	No	Yes
User Defined Formulas that can Include DP Fields, Statistics or other Formulas	Yes	No	No	No
Report Body Control by using Criteria to Create Records Based on a Boolean Comparison	Yes	No	No	Yes
Password Contract Capability by Individual Report Protects Accounting Data	Yes	No	No	No
Advanced Chaining Feature Included so that one Report can Automatically Launch Another Report	Yes	No	No	No
<b>DP/AUTO (Event Triggering System)</b>				
Task Scheduling Tool to Generate Reports, Run Scripts and more	Yes	No	No	No
Works in the Background on any Timetable you Establish	Yes	No	No	No
Can Import or Export Data with any Other 3rd Party Application	Yes	No	No	No
Generate EDI Type of Transactions and Process Data	Yes	No	No	No
Deliver Reports to Printers, Faxes or E-mail	Yes	No	No	No
Creates Custom Interfaces of Data for Products Such as <b>UPS WorldShip</b> and <b>FedEx Ship Manager</b>	Yes	No	No	No
<b>15</b> Standard Scripts Included such as Automatic Accrual of Payroll Time	Yes	No	No	No
Allows for Creation of Visual Basic Scripts by Anyone	Yes	No	No	No
<b>DP/DashBoard (Browser Based Intranet Module)</b>				
Includes Full Integration with a Wide Range of Accounting Modules	Yes	No	No	No
Utilizing the same Advanced Security Rights Designed for the Users Within the Windows				
Version of <b>Infinity POWER</b>				
Not all Windows Features are Incorporated on Purpose	Yes	No	No	No
Drilldown Capabilities are Expanded in the Browser Product General Ledger Financials,	Yes	No	No	No
